EDUCATION

Motilal Nehru National Institute of Technology Allahabad <i>Master of Computer Applications; CPI : 7.78</i>	<i>Prayagraj, India</i> 2023 - 2026
I.K.Gujral Punjab Technical University <i>Bachelor of Computer Application; CGPA: 8.46</i>	<i>Jalandhar, India</i> 2019 - 2022
R.K.College Madhubani,Bihar <i>Intermediate (BSEB Board); Percentage: 80.04</i>	<i>Madhubani, India</i> 2017-2019
Samaj High School Ghonghour, Madhubani, Bihar <i>High School (BSEB Board); Percentage: 73.6</i>	<i>Madhubani, India</i> 2015-2017

INTERNSHIP

CodSoft (Full Stack Development)	<i>Oct 2023 - Nov 2023</i>
- Developed and maintained a responsive full-stack web application using the MERN stack (MongoDB, Express.js, React.js, Node.js). - Upgraded frontend and backend functionality, enhancing problem-solving and debugging skills. - Optimized UI components, reducing frontend load time by 30% through efficient rendering. - Demonstrated initiative by learning new development practices and resolving project challenges proactively.	

PROJECTS

BookSphere (GitHub Live)	<i>Feb 2025-Mar 2025</i>
<i>A platform to explore, purchase, and manage books.</i> - Tools & Technologies: JavaScript, React.js, Node.js, Express.js, MongoDB, Git. - Built a full-stack book discovery application serving 200+ test users, Boosted page-load performance by 35%. - Integrated Razorpay payments, advanced search, and backend email support with secure JWT authentication. - created an adaptive UI delivering consistent performance across desktop and mobile devices. - Developed an intuitive search bar enabling users to quickly find books based on keywords. - planned user-friendly UI/UX with light/dark mode toggle to support accessibility and preference. - Ensured full responsiveness across all screen sizes including desktops, tablets, and mobile devices.	
MindMerge (GitHub)	<i>May 2025-June 2025</i>
<i>A collaborative platform for idea submission, discussion, and community-driven prioritization.</i> - Tools & technologies: Python, Django, HTML, CSS, Git. - Built a collaborative idea-sharing platform with secure authentication, categorized idea posting, commenting, and community upvoting. - Enhanced responsive UI, admin dashboard, and full CRUD functionalities while mastering Django ORM and database management. - Planned future enhancements such as REST API integration, real-time notifications, and cloud deployment to expand platform capability.	

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, HTML, CSS
Frameworks/Libraries: Pandas, NumPy, React.js, Node.js, Express.js
Databases: MongoDB, MySQL
Technologies and Tools: Linux, Github, Visual Studio Code, Postman
Domain Knowledge: Advanced Excel, Object-Oriented Programming, Data Cleaning, Statistical Analysis, DBMS, Debugging Performance Analysis

ACHIEVEMENTS

Secured **4th place** in Operamenia at Avishkar 2024 (MNNIT Allahabad).
Achieved **7th position** in CodeSangam event at MNNIT Allahabad (2023)
Qualified HackOn With Amazon – Season 4 coding round.
Achieved **global rank 1508** in LeetCode Biweekly Contest 409 (2024)
LeetCode max rating: **1654**.
Solved **1200+** DSA problems across competitive programming platforms
