EDUCATION

Motilal Nehru National Institute of Technology Allahabad <i>Master of Computer Applications; CPI : 7.78</i>	<i>Prayagraj, India</i> 2023 - 2026
I.K.Gujral Punjab Technical University <i>Bachelor of Computer Application; CGPA: 8.46</i>	<i>Jalandhar, India</i> 2019 - 2022
R.K.College Madhubani,Bihar <i>Intermediate (BSEB Board); Percentage: 80.04</i>	<i>Madhubani, India</i> 2017-2019

INTERNSHIP

CodSoft (Full Stack Development) • Developed and maintained a responsive full-stack web application using the MERN stack (MongoDB, Express.js, React.js, Node.js). • Upgraded frontend and backend functionality, enhancing problem-solving and debugging skills. • Optimized UI components, reducing frontend load time by 30% through efficient rendering. • Demonstrated initiative by learning new development practices and resolving project challenges proactively.	<i>Oct 2023 - Nov 2023</i>
---	----------------------------

PROJECTS

PromptFlow (GitHub Live) <i>A node-based AI workflow builder for orchestrating complex LLM sequences.</i> • Tools & technologies: React.js, TypeScript, Node.js, Express.js, React Flow, Trigger.dev, Gemini API, Clerk. • Developed a pixel-perfect visual canvas using React Flow for dynamic node management and real-time workflow orchestration. • Implemented durable background execution via Trigger.dev, ensuring asynchronous AI tasks complete regardless of browser state. • Integrated Google's Gemini 1.5/2.0 Flash API for multimodal processing, enabling complex reasoning across text and image inputs. • Designed scalable backend APIs to handle job polling, workflow history, and secure communication between the UI and LLM engine.	<i>April 2026-May 2026</i>
QueryTutor AI (GitHub) <i>A browser-based SQL learning platform enabling users to practice queries with AI.</i> • Tools & Technologies: React.js, Node.js, Express.js, PostgreSQL, MongoDB Atlas, SCSS, LLM API • Built an interactive assignment interface including question panel, sample data viewer, SQL editor, and real-time results display. • Implemented secure SQL query execution with validation, sanitization, and structured error handling mechanisms. • Integrated LLM-based hint generation using prompt engineering to provide guidance without revealing solutions. • Designed scalable backend APIs and data flow handling query execution, database communication, and state updates.	<i>Jan 2026 - Feb 2026</i>

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, HTML, CSS
Technologies and Tools: Pandas, NumPy, PowerBI, Matplotlib, Seaborn, Tableau, React.js, Node.js, Express.js, Linux, Github, Postman, AWS
Domain Knowledge: Object-Oriented Programming, Data Cleaning, Statistical Analysis, DBMS, Debugging
Performance Analysis, Advanced Excel
Area of Interest: Software Development, Web Development, Data Structures and Algorithms, Competitive Programming

ACHIEVEMENTS & CERTIFICATIONS

Successfully completed a Data Analytics Course from Udemy .	<i>2026</i>
Secured Global Rank 292 in TCS CodeVita Season 13	<i>2026</i>
Secured 4th place in Operamenia at Avishkar 2024 (MNNIT Allahabad)	<i>2024</i>
Qualified HackOn With Amazon Season 4 coding round	
Achieved global rank 1508 in LeetCode Biweekly Contest 409	<i>2025</i>
Solved 1200+ DSA problems across LeetCode, Codeforces, and other competitive programming platforms.	

CODING PROFILES

LeetCode: [shishupal4232](https://leetcode.com/shishupal4232) **Codeforces:** [Shishupal_sahu](https://codeforces.com/profile/Shishupal_sahu)

POSITION OF RESPONSIBILITY

Hostel Secretary (Tagore Hostel, MNNIT Allahabad) • Managed daily administrative tasks for a hostel with 300+ residents). • Acted as liaison between students and administration for issue resolution. • Coordinated with staff to ensure cleanliness, safety, and maintenance. • Facilitated onboarding and communication of hostel policies to residents.	<i>Aug 2023 - May 2024</i>
